

If you have installed the previous version, please **uninstall** it before you proceed with the new version. Download the DBC v3.0.apk and start the installation:

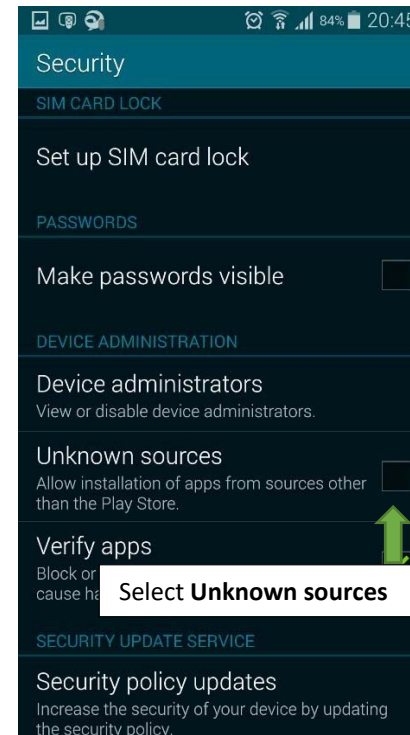

In Older Android version, you might get an error regarding **Unknown sources**. Please enable Installing from **Unknown sources** by following **Steps 1, 2 and 3**

For newer version of Android follow **Steps 4 onwards**

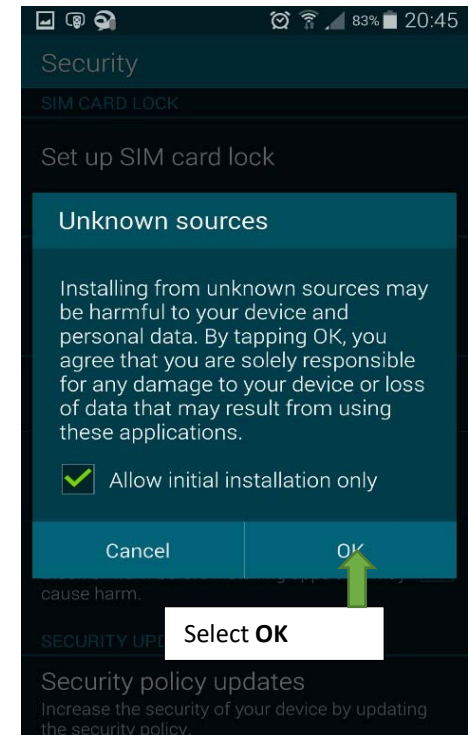

Select **Settings** and scroll down to **Unknown Sources**

1

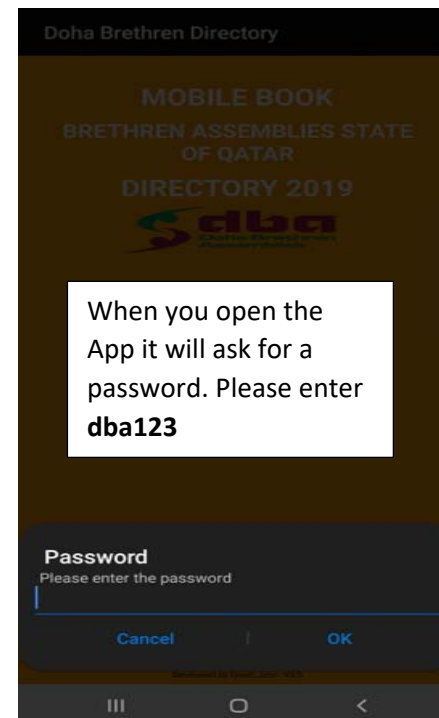

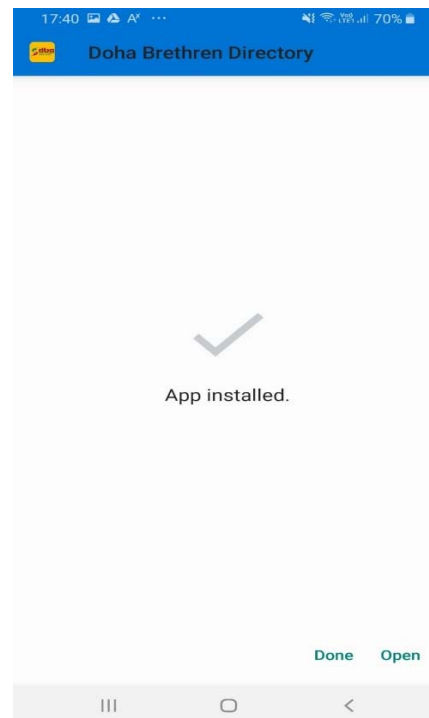

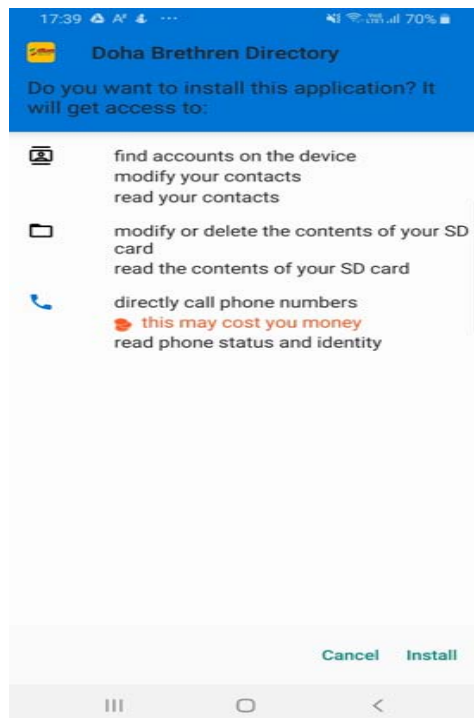

Select **Unknown sources**

2

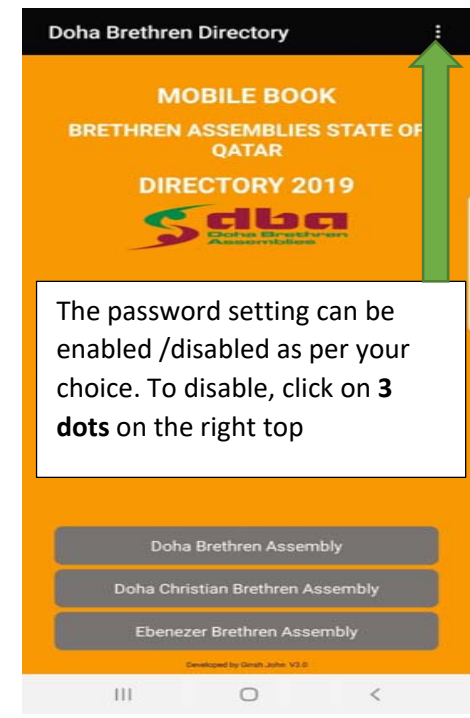

Select **OK**

3

When you open the App it will ask for a password. Please enter **dba123**

The password setting can be enabled /disabled as per your choice. To disable, click on **3 dots** on the right top
